## MORE ABOUT WHAT WE DO

A regional public/private economic development organization, EDC-VC works to maintain the county's economic health and vitality, delivering programs that promote jobs and economic growth, and raise overall productivity and incomes. EDC-VC offers advising and workshops through its Small Business Development Center for all-encompassing business assistance, and offers two other loan programs. For more information, visit [www.edc-vc.com](http://www.edc-vc.com).

## OVERVIEW

Through its Business Assistance Program, the city of Ventura funds three separate loan options. One is a small business or micro-enterprise program; the second is designed to revitalize the city's older commercial districts through building rehabilitation, such as through facade and structural improvements; the third is to support commercial property owners with code compliance. All of these loan programs are aimed at assisting business owners overcome some of the hurdles to successful entrepreneurship. EDC-VC's role is to provide business counseling and loan application assistance to business and building owners and to handle all loan underwriting and subsequent servicing. EDC-VC maintains a Loan Administration Board for the review and approval of loan applications.
